Josh Kahn. Happy to meet your rabbi as well. Who is he?

Matt,

Who are you meeting with? There is a rabbi who is one of the leaders who is also a supporter of mine. We can reach out to him.

Thanks Alex. We are working with Lavista Hills to reconcile the western boundary issues. They are being effective partners in that process. We are also meeting with a resident leader in the Merry Hills area next week to understand any issues they have. While we are happy to have the commercial areas included in Lavista Hills, we would like to avoid splitting the Briar Vista Attendance zone.

Subject: Opposition to City of Atlanta Annexation of Toco Hills, Support Lavista Hills

Dear Representatives Oliver, Mosby and Jacobs, Councilmember Wan and Senator Parent:

As a resident of the Toco Hills neighborhood currently in both the proposed City of Lavista Hills map and the area the City of Atlanta is proposing to annex, I am writing to express my OPPOSITION to the annexation of our community into the City of Atlanta. Although I support annexation in principal, I believe the Atlanta city boundary should end where the proposed Lavista Hills boundary begins. Please remove us from the annexation map and include our

neighborhood in the proposed city of Lavista Hills.

Thank you for your service to our community and the people of Georgia.

Sincerely,

Lynette Joel
